

Source Document Test Pack: Grade 4 ESL Lesson

Topic: Animals, habitats, and simple present tense

1. Overview

This file is intentionally simple. It includes headings, paragraphs, bullets, a small table, and numbered steps for document-upload pipeline testing.

2. Learning Objectives

- Identify common animal habitat vocabulary.
- Use simple present tense to describe animal behavior.
- Answer short comprehension questions using full sentences.

3. Vocabulary Table

Word	Meaning	Example sentence
habitat	The natural home of an animal or plant.	The frog lives in a wet habitat.
nocturnal	Active at night.	Owls are nocturnal animals.
predator	An animal that hunts another animal.	The fox is a predator.
prey	An animal that is hunted by another animal.	The rabbit is prey.

4. Reading Passage

A red fox lives near the forest. It sleeps during the day and hunts at night. The fox eats small animals, fruit, and insects. It uses its ears and nose to find food.

5. Comprehension Questions

- 1 Where does the red fox live?
- 2 When does the fox hunt?
- 3 What does the fox eat?

6. Metadata for Parser Testing

Document type: lesson_seed

Suggested grade: 4

Language focus: simple present tense; animal vocabulary
